**Abstract:** These instructions give you basic guidelines for preparing camera-ready papers for Academica Press conference proceedings/Journal Publications.

**Keywords:** List five or more keywords related to your work.

### **Introduction**

Your goal is to simulate the usual appearance of papers in a Conference Proceedings or Journal Publications of the Academica Press. We are requesting that you follow these guidelines as closely as possible.

### ***Paper size, margin size and headers***

The paper should be in A4 format and the margin sizes are given below;

Top and Bottom = 3.81cm

Left and Right = 3.56cm

Please use 12-point Times New Roman for the body of the text. A 10-point font should be used for notes, figure caption and tables and a 10-point font for references.

*Line Spacing*

The spacing between lines in the body of the text must be 1.5 lines, or 18 points, or .635 cm., except for indented quotations, which, like the notes, bibliography and the index, should be single-spaced. Please do not put extra space between paragraphs.

*Pagination:* The page numbers must be placed .5 inch, or 36 points, or 1.27 cm., from the first line of text. Even-page numbers should appear in the top left corner of the page flush with the text, and odd-page numbers should appear in the top right corner of the page flush with the text. The page numbers will thus appear on the outward edge of the text.

**Page headers**

The header should be centered on the same line as the page number. The title of the book will appear on the even-numbered printed pages. The title of the pertinent chapter will appear on the odd-numbered pages. These can be shortened titles if they run to two lines.

**Tables**

Choose how you wish to format the rows and columns. Be consistent throughout your manuscript. The table reference and heading should appear above the table. Use 10 point for the title and complete table matter. Tables are to be centered on the page. Place the tables into the manuscript near text reference of the same. Leave 1 blank line before the table heading and 1 blank line after the table.

**Figures**

1. The lettering used within the illustrations should be in 10 point type size throughout the figures.
2. Place the illustrations at the centre of the page.

3. Place the figures into the manuscript as close as is practical to the point where they are referenced.
4. All figures should have appropriate titles. Leave one line blank space above and below figure caption.
5. Figure captions should be in 10 point.

Table 1. Sample table

Heading	Font size	Heading
Title	14 points	Bold
Author	12 points	Normal
Content	12 points	Normal
Headings	12 points	Bold
Figure/Table	10 points	Normal

**Conclusion**

The authors can conclude on the topic discussed and proposed. Future enhancement can also be briefed here. Paper title, Authors name and affiliation, Abstract, Keywords, Introduction, Proposed work, Conclusion and References are mandatory to accept a research paper.

**Acknowledgment**

The authors wish to thank A, B, C. This work was supported in part by a grant from XYZ.
